## HUGE LOANS BE MADE TO WARRING POWERS.

**Germany, Russia and France Ask for Over One Hundred Million.**

**Money is to be Kept on Deposit in American Banks to Offset Purchases of Foodstuffs and War Supplies, and it is Evident Europe will Look to the United States for its Necessaries of Life for Some Time to Come.**

(BY A. P. NIGHT WIRE.)

**WASHINGTON.** Oct. 30.—Viewing the credit loans to belligerent countries as private transactions, the Washington administration will not attempt to interpose its influence against such transactions on the part of the American bankers.

This was learned on the highest authority today after it became known that the German financiers were contemplating the establishment of a credit loan in this country, similar to the \$10,000,000 credit fund negotiated by the National City Bank of New York and other bankers for the French government.

The decision of the Washington administration may lead to the purchase in the United States of about \$50,000,000 worth of supplies by Russia and an equal if not a greater amount by Germany. Details of the expected transactions are lacking here.

High officials of the Washington administration insist that President Wilson has not changed his mind announced at the outbreak of the war that the loaning of money to belligerents would be "inconsistent with the true spirit of American neutrality."

A distinction was drawn by officials, however, between the loans referred to at that time—such as bond issues offered for public sale—and credit transactions intended as a checking account against the purchases of supplies of foodstuffs and supplies from American firms.

The President realizes that this government has no legal right to oppose loans of any character, nor is there any obligation of international law forbidding them. During the Russo-Japanese War, Japan was floated for Japan in the United States through public bond issues. The President is understood, however, to be opposed to that form of loan as liable to stir up ill feeling and prejudice.

## MILLIONS ON DEPOSIT TO BUY CHICAGO GOODS.

(BY A. P. NIGHT WIRE.)

**CHICAGO.** Oct. 30.—Chicago bankers who are taking part in the negotiations of some of the belligerent nations of Europe for supplies in this country said today purchases for cash have reached a large volume and there is every reason to believe the demand will continue.

Chicago alone is said to have come in for \$7,000,000 or \$8,000,000 of this business to date, and more large orders are pending. Great Britain is taking large quantities of supplies

## PLANS ARE FORMULATED TO PAY ENGLISH DEBTS.

(BY A. P. NIGHT WIRE.)

**WASHINGTON.** Oct. 30.—The conference adjourned to meet again tomorrow without reaching the point where a definite agreement was announced. All those present took a pledge of secrecy as to any plan proposed.

Despite the lack of official disclosure, however, it became apparent tonight that the conferences have resulted in concrete plans to be taken to take care of American obligations to England in a manner which will be satisfactory to American bankers, the Treasury Department, and the English government. George F. Baker, it was understood, was able to cable to his government details of the way in which American bankers plan to meet their obligation. It has been generally acknowledged.

## GERMAN SURPRISE ATTACK REPULSED WITH LOSSES.

(BY ATLANTIC CABLE AND A. P.)

**H**AVRE (via London) Oct. 30.—The Belgian Minister of War has received the following from the headquarters of the Belgian army:

"During the night of the 28th and 29th, the enemy again attempted to seize by surprise the southern end of the bridge at Dixmude, but was repulsed.

"During the day of the 29th our front was subjected to a heavy bombardment. Moreover, the enemy made two infantry attacks, one against the right of our army division, and another, and very violent one, against two brigades mixed with other army divisions. The enemy was repulsed with very heavy losses, some of their companies being decimated.

### WILL GIVE BALL TO AID BELGIANS.

ONE MAN PAYS ALL EXPENSES AND BUYS A HUNDRED TICKETS BEHIND.

On Friday evening, November 4, a grand ball will be given in Payne's Dancing Academy under the auspices of the Belgian war relief fund. Splendid music will be furnished. Refreshments will be served by the ladies of the Belgian Relief Committee.

While the American style of dancing will be in vogue, several Belgian native dances will also be given.

The object is to raise money for the sufferers of the war in Belgium.

As winter is coming and women and children are in great need of necessities, the Belgian Relief Committee has earnest appeal to the charitable public to help them to relieve the distress of the unfortunate Belgians in Europe. Tickets can be obtained at Charles Winsel's, No. 111 South Main street, or at Payne's Dancing Academy, corner Orange and Alvarado streets.

Mr. Henry Laub has provided the hall, orchestra and refreshments and bought 100 tickets at \$1 each in order to give a good start with the sale of the tickets.

(BY A. P. NIGHT WIRE.)

**PRINCETON (N. J.) Oct. 30.**—Col. Theodore Roosevelt told the students at Princeton, in an address today, that he had seen the plans of two empires now involved in the European war to capture great American seaports and hold them for ransom.

"It is the duty of the United States to defend its rights if they are invaded. I, myself, have seen the plans of at least two empires now involved in war to capture our great cities and hold them for ransom," he said.

"I am not too weak to protect them. I have seen deliberate plans prepared to take both San Francisco and New York and hold them for ransoms that would cripple our country and give funds to the enemy for carrying on war."

**IRISH ARRIVE TO HUNT WORK.**

DECLINE TO ADMIT PURPOSE WAS TO AVOID SERVING IN BRITISH ARMY.

(BY A. P. DAY WIRE.)

**NEW YORK.** Oct. 30.—Four hundred Irishmen from 18 to 25 years old came over from Queenstown in a body on the steamer Cedric, which reached here today. They declined to say if they had come to America rather than enlist in the British army, but did say they came here to look for work. It was reported among the men that they had come to Ireland because an Irish labor leader had convinced them that the British government was soon to enforce conscription in Ireland.

According to recent mail advice from Ireland, the number of men of military service age here has been heavier this fall than in many years, and was giving the authorities some uneasiness.

**SIGNOR SALANDRA MUCH BETTER.**

(BY ATLANTIC CABLE AND A. P.)

**ROME (Italy) Oct. 30.**—The health of Signor Salandra, the Italian Prime Minister, was much better today, his temperature being normal. He hopes to be able to go to the Foreign Office today and to preside over the meeting of the Council of Ministers on Monday.

Premier Salandra is reported to be working hard for an understanding between Gen. Zuppelli, the Minister of War, and Signor Rubini, the Minister of the Treasury. Gen. Zuppelli has \$160,000 more than which was demanded by Gen. Porro, when he was recently offered the war portfolio, to bring the Italian army up to a state of complete efficiency. Signor Rubini, however, protests against such a high expense, and does not want to have to pay through new taxation.

Wealthy Women of London Buying Ready-made Clothing and Dressmakers are Out of Work.

(BY ATLANTIC CABLE AND A. P.)

**LONDON.** Oct. 30.—The economy being practiced by English women at present is causing lack of work in certain branches of trade. At a meeting of relatively unemployed people here tonight it was stated that one-third of the 60,000 dressmakers in London are on short time because even the well-to-do are buying cheap ready-made clothing. It was noted that women of all classes had taken warlike steps to be as much as possible to the German flag. There never has been an exact definition of the status of the vessels. When they entered the Dardanelles, the English said that Turkey had bought them.

The German officers and crew remained despite protests of the triple entente. An official dispatch to the Russian Embassy here that Turkey had taken warlike steps was believed to be the same as was cabled to the Russian Embassy at Tokio from which

the report emanated that Turkey had declared war on Russia.

**FORCES OF TURKEY.**

The regular army of Turkey is composed of thirteen army corps, most of which are in Turkey in Asia. The infantry is said now to be the strongest force in the world, having 1,000,000 men in its ranks. It has 1,000 guns during the recent Balkan war.

Turkey's naval strength consists of three battleships, four cruisers, three torpedo gunboats, ten destroyers, ten torpedo boats, twenty-eight small gunboats, and various destroyers and auxiliary craft. The battleships are old and none has guns larger than eleven inches. Two of the four cruisers are the Gebees and Breslau.

**Necessity is Urgent, Declares Report from Europe.**

**ATLANTIC CABLE AND A. P. LONDON, Oct. 30.—American Ambassador Page, Herbert Clark Hoover and other members of the American commission for the relief of Belgium, met today and arranged for the immediate shipment of foodstuffs from America to Rotterdam for Belgian distribution. Negotiations have opened for the sending of food on a steamer leaving from San Francisco and on another ship sailing from New York.**

The loading of the steamship Iris was hastened today and she sailed from the Thames late this afternoon, carrying another thousand tons of food to Rotterdam. Reports received from London, however, have convinced us that the two ships of provisions now on their way aboard the steamers Coblenz and Iris will be wholly inadequate to allay the suffering even if they are available immediately in the United States. British suffragettes sent 1896 tons of condensed milk and other supplies to Flanders for the relief of refugees in the Dutch provinces of Holland. Holland permitted the transportation of the gifts, saying that there is no objection to contributions by individuals, although help from the British government is solicited.

**WILL SAIL SOON FROM NEW YORK**

**BY A. P. NIGHT WIRE**  
NEW YORK, Oct. 30.—A special steamer carrying a cargo of food supplies for the starving Belgians will be sent from New York to Rotterdam at the earliest possible date, it was announced yesterday by the Belgian Relief Committee here.

The London American committee is opening offices in Rotterdam, Brussels, Ghent, Lille and other points. It has arranged working co-operation with the Belgian Relief Committee here.

Belgian, whose organization extends over the whole of Belgium. This committee has been recognized by the German, Belgian and English governments as the most accredited vehicle for the help in Belgium.

The American London committee already has purchased, at an outlay of about \$500,000, and has distributed

for the relief of Belgians. Food supplies for foodstuffs are available in London, and Ambassador Page telegraphed back to the Belgian Relief Committee in this city "instant recognition of the work done by your committee." Adequate quantities of food, which can be furnished only in this country, are now being shipped from this city, the Belgian Relief Committee has said. It is to be expected that the supply will be started from the United States immediately.

**HOOVER'S CABLE**

Chairman Herbert Hoover of the London committee cabled: "The situation is daily becoming more critical and it is very important to arrange for shipping supplies from America to Belgium."

Ambassador Page said in a cable message today:

"Need in Belgium cannot be supplied. Owing to shortage of foodstuffs and to its services, it is impossible to start the supply from the United States immediately."

MEXICO CITY, Oct. 30.—The resignation of Gen. Venustiano Carranza as Provisional President and First Chief of the Constitutional army, was eliminated from power by a vote of the Constitutional army, who served during the time of the revolution, to give way to a Belgian or French port to succor the wounded, when she was driven ashore. It is understood that all the women on board were saved, including one who was a survivor of the Titanic disaster. The fate of the physicians is uncertain as is that of the captain and the crew. The total number of persons on board is not known, but some estimate places it at 200.

When the vessel broke in two, eight men could be seen from the shore clinging to a piece of wreckage from the after part of the ship, and it was assumed that they were swept to their death in the boiling sea. Fourteen bodies had been washed ashore this evening.

Rain was falling in torrents and a gale was blowing and the seas were mountainous when the vessel hit the rocks. Distress rockets immediately flared above the Rohilla, attracting the attention of the British naval force near Nieuport.

The British naval force near Nieuport consists of three monitors, three cruisers and a battleship with twelve-inch guns. Destroyers are protecting the coast from attacks by German submarines, which have been hovering around the coast.

A German official report says that Dunkirk is preparing for a siege and that the populace is prepared to flood the locality in case of a German advance.

No important developments have been reported from Poland or Galicia today.

With the announcement that Baron P. G. von Battenberg has been appointed Sea Lord of the Admiralty the newspapers believe that the warfare on the part of the navy will be prosecuted sternly.

"The war of violence," is one of Admiral Fisher's sayings.

A renewed demand is being made for the closing of the entire North Sea.

A majority of the newspaper express confidence in the loyalty of Prince Louis of Battenberg, but a few of them consider that his resignation was wise and desirable.

It is believed that most of those on board perished. Eleven physicians were among them, it is said.

Fromme of Giants Looks for Consolidation.

Has not Signed Contract for Next Season.

New York Simply Lacked the Punch, He Says.

BY HARRY A. WILLIAMS.

Art Fromme, who at this time a year ago experienced a nervous chill while trying to decide whether to sign with the Feds or stick with the New York Giants, is back in town in a much more calm and collected condition.

Fromme has not signed with New York for next season, while the fact that President Gilmore of the Feds sought an interview with him in the East did not cause him to become excited. All of which would seem to indicate that he is not going to be in a rush about doing business for next season, either with the Giants or the Feds.

After leaving New York Fromme and Bob Edwards learned that Gilmore had tried to get in touch with them over the telephone a few moments after their departure. This makes it clear that the Feds are after Fromme again.

Fromme says that neither of them has received a definite offer.

Fromme is of the belief that there is not room for three major leagues, and that some day one of the big leagues will have to reach which will remove one from the map. This, he thinks, may be accomplished by consolidating the American National and the Federal into one league, each club each. Consequently he is not particular about signing until things become more settled in the baseball world.

"I am convinced that the field is not large enough for three big leagues," said he. "With three majors playing, one will make money, the second will break even, and the third loss. This is a condition which, of course, could not continue indefinitely."

Fromme fell hair to the underseasable job of relief pitcher this season, a position of some honor and much to his credit, vacated by the defection of Otto Cahn.

Because of this, his percentage of victories, while large compared with his defeats, does not appear formidable when viewed from the total number of games which he has pitched.

His mark was much better than in 1913, but constant relief work tended to take the edge off his effectiveness.

In Pittsburgh he pitched in three consecutive games and that is something not calculated to soothe the strength on the salary whip.

He has decided to abstain almost entirely from winter ball, and recently turned down a second offer from Manager Bayless to pitch for Calexico.

However, he may make the trip to Honolulu with Bancroft's all-Nationals late in November, an expedition which he has been invited to make.

His first expressed a willingness to accompany Maier's All-Stars to the island, but learned that Jack Bill had already signed all the heavies that he could use.

Fromme has no definite alibi for the Giants in their failure to win the pennant.

Fromme, that nature never intended that any ball team should win four games in a row, he said. "We looked like the best kind of a bet until the Braves began their heart-breaking spurt. We couldn't stop them and neither could any of the other clubs. But if we had gone right, we would have beaten enough of the weaker teams to cop the flag in spite of Boston's rush."

The team simply seemed to lose its punch. Despite the failure of Marquard, the club had just about as good pitching as it did in 1913.

But the fans were not there. At that, do you believe the club would have come back permanently? But our the only member of the team to play consistently ball throughout the season.

Third base is still a thorn in the managerial side of Mr. McGraw. And unless he can fill it satisfactorily either by purchase or trade, it is probable that President Hempstead this winter will offer the team up for sale again.

Hap Hogan on his return from San Francisco yesterday was inclined to be rather noncommittal in discussing the deal by which he may become manager and part owner of the Missions in case that club is returned to San Francisco.

"I have not decided definitely on my plans for next season," said Hap, "but any change which I make will better me financially. I will take no less than \$15,000 for the stock, plus a present contract with the Venece chain, a good one. Maier, however, has expressed a willingness for me to better myself conditions arise which will make this possible."

Crowded.

**DALLAS RACES.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH) DALLAS (Tex.) Oct. 29.—The State Fair race meet came to a close this afternoon. The feature event of the day was won in two straight heats by Knight of Stratthorne, a chestnut stallion owned by Sidney Goldman of Los Angeles, Cal. The race was for pacers of the 2 1/2 class and the purse offered \$1500. Minnie Cox, the famous little brown mare of J. O. McWay of Hutchinson, Kan., placed second in the two heats constituting the race.

Summary:

The 2 1/2 class, pacer: purse \$1500. First, Knight of Stratthorne (Howley); won. Minnie Cox (McWay) second; J. W. Wilkerson (Simmons) third; best time 2:05 1/4.

The 2:12 class, trotting: purse \$1000; three heats, every heat a race. First, Knight of Stratthorne, first; Miss Denison (McLaughlin) second; Fair Virginia (Cox) third.

Second heat: Fair Virginia, first; Elmer Bell (Webster), second; Jennings, third.

Third heat: Miss Denison, first; Elmer Bell, second; Fair Virginia, third; best time 2:08 1/4.

**CLABBY-CHIP****REFEREE ILL.**

(BY DIRECT WIRE—EXCLUSIVE DISPATCH) SAN FRANCISCO, Oct. 30.—Jim Griffin, California's premier boxing referee, is seriously ill at the French Hospital. Griffin is a victim of pneumonia, and it will not be known for several days what comes when his chances of recovery.

The illness of Griffin, even though it should be found in several days that he will recover, is apt to play havoc to some extent with the Jimmy Glavin-Chester Gandy match next Friday night. Griffin has been succeeded by both middleweights as the third man in the ring, and there is more than likely to be a prolonged discussion when it comes to filling his shoes.

Griffin has been one of the best of the latter-day referees, and while he has occasionally made his mistakes, as all referees make them, on the whole he has shown exceptionally good judgment in the ring.

**TROJANS MEET  
TIGERS TODAY.**

Both Elevens are in Condition for Battle.

**Tigers Fighting Mad; U.S.C. Hopeful.**

**Immense Crowd Expected to Play the Game.**

The greatest American football game that the south has seen since the days of the Sherman Indian and Miami football battles will be fought at Bowing this afternoon, when the spry, shifty Tigers and the smooth-shifting Trojans rush together. The prediction of the doppers.

London, Paris, Berlin are not more agitated than Occidental U.S.C. For the moment the grueling war with its imminent, decisive battle shadows the European war in the minds of the south's younger generation.

**VARSITIES RIGHT.**

The two varietals are trained to the minute, composed of perfect specimens of college manhood who have done nothing but live, sleep and play football for a week. The one has been coached by "Speedy" Pipal, making two-championship varietals; the other by Ralph Glaze, one of the greatest football players that ever stepped on a gridiron.

The outcome of the game is in doubt. That is generally admitted. It may be a game with a small lead or a big score, a close score or a lopsided one. It may be a grueling contest with little to the way of boundaries or a hand-to-hand struggle to the finish.

**SCORING.**

Both varietals are expected to make the most effective—the U.S.C. smashing, shifting attack with frequent interwoven, and the fast, sharp lightning, wide-open Tiger attack. Whether the Tigers or the Trojans will win a game where the possession of the ball means everything?

As far as the fighting edge of condition is concerned, the Tigers are said to have a trifle the advantage. Their men are in excellent condition physically, but they have had to bear their condition over since the World War.

The Tigers are fighting well. They have reached that stage of maturing when they are growing ready for the fight at the drop of a hat. The Tigers have just reached the top condition. The Trojans have held their. That gives the Tigers an edge.

**TROJANS HEAVIER.**

But the Trojans are heavier than the Tigers—heavier where pounds count. They have the beef in the line. Against Whittier the Trojans had a stone wall. The Quaker interface from the Quaker interface from the

Michigan line to the Michigan line.

The Trojans have a high line. The Quaker line had it at the go. It is much improved since then. It is enough improved to stand up to the Trojans.

The Trojan backs have proved themselves line-tippers and endsmashers. They worked the former game with no small success against the Quakers. Then how about the Quakers? What will they do?

The Tiger backs are snappy, fast, in the open, quick and smashing. Wide sweeping passes have been made in the past. The front row would go in as half-backs now. Hardwick's place at end was taken by Smith.

**STUDENTS EXCITED.**

The two student bodies will be in force to cheer their various Occidental and Harvard teams.

Gathering around a moment and laughter, there was a time when men who have their backs to a wall and mean to fight to the stroke.

The U.S.C. roters are more than a dent of victory than the Trojans. But the variety itself is not evident.

Capt. Davis said last night he would be a hard fight and a game. We hope to win the game. Coach Pipal of Occidental had to say to the bacon for the Ontario fans.

The line-up will be as follows:

right, half; Arnett, right; Phillips, right guard; Siemon, tackle; Morris, left end; Abbott, tackle; South, right half; Wymore, full-back.

SANTA ANA—**OCCIDENTAL.**

(SPECIAL CORRESPONDENCE.) SANTA ANA, Oct. 29.—Santa Ana High School's football team is to play their home game Saturday against Occidental. On November 7, the team meets Long Beach and on November 14, Pasadena, in league games. The Santa Anas are in good condition and are developing speed and strength.

Two of the most notable developments of the season are Oerdy and Flavan. Oerdy weighs 170 lbs. and is stronger than when he was a boy. Flavan stands on at 150 lbs. and is one of the speediest men on the field.

Coupling this to Manana's and a hot game will result in Toller's winning their side of the battle.

Hugh Blue will be the referee. Bob Weaver will be the linesman.

The two high schools are confident over the game. The spirit of competition is warming. Come on, Europe! What Europe needs is Mr. Bill Hillman will fight as never before in the third round.

**LEVINSKY WINS ANOTHER FIGHT.**

(Philadelphia, Public Ledger.) We too, might be involved in all this European trouble had not the Chautauquas been utilized by the great tribunes of peace to teach the people of Europe. What Europe needs is Mr. Bill Hillman will fight as never before in the third round.

London, Paris, Berlin are not more agitated than Occidental U.S.C. For the moment the grueling war with its imminent, decisive battle shadows the European war in the minds of the south's younger generation.

**VARSITIES RIGHT.**

The two varietals are trained to the minute, composed of perfect specimens of college manhood who have done nothing but live, sleep and play football for a week. The one has been coached by "Speedy" Pipal, making two-championship varietals; the other by Ralph Glaze, one of the greatest football players that ever stepped on a gridiron.

The outcome of the game is in doubt. That is generally admitted. It may be a game with a small lead or a big score, a close score or a lopsided one. It may be a grueling contest with little to the way of boundaries or a hand-to-hand struggle to the finish.

**SCORING.**

Both varietals are expected to make the most effective—the U.S.C. smashing, shifting attack with frequent interwoven, and the fast, sharp lightning, wide-open Tiger attack. Whether the Tigers or the Trojans will win a game where the possession of the ball means everything?

As far as the fighting edge of condition is concerned, the Tigers are said to have a trifle the advantage. Their men are in excellent condition physically, but they have had to bear their condition over since the World War.

[POLITICAL ANNOUNCEMENT]

# Hobson's Exaggerations

*Answered With Convincing Facts  
From U. S. Census Report*

By Philadelphia Public Ledger

CAPTAIN RICHMOND PEARSON HOBSON recently delivered an address at a Presbyterian Church in Germantown in which he stated that, counting all who have been killed or wounded in battle in all the wars from the Macedonian Wars, 300 years B. C., down to the present time, he estimated that about 2,000,000 had been killed, while also, according to his estimation, about 2,300,000 Americans were killed by alcohol in one year, or more than the soldiers, sailors and others of all nations sacrificed by war in 2,300 years. Captain Hobson also stated that it was shown that only the total abstainer lived beyond the age of 65; that the average age of the moderate drinker is 51, while the heavy drinker lives only to the age of 36.

THE PUBLIC LEDGER believes the cause of true temperance is damaged, not advanced, by such gross exaggeration and misrepresentation. \* \* \*

A study of the census mortality statistics for 1912 shows the assertions of Captain Hobson to be ridiculous. In the registered area from which health statistics are received, representing two-thirds of the entire population, there were 833,215 deaths in 1912, about one-third as many as Captain Hobson attributes to alcohol. Of this total 204,639 were children under 5 years of age; 216,184 were persons who had passed the age of 65; 28,000 died between the ages of 5 and 14. Deducting this from the total leaves 390,000 deaths between the ages of 14 and 65. As 142,000 died between the ages of 50 and 65, this would leave a total of 248,000 deaths of people who would come within the danger line of alcohol, from moderate drinking. This applies to two-thirds of the population. Applied to the whole country it would show that the total deaths between the ages of 14 and 50 would be 372,000 or a little over 1000 every day from all causes, instead of 2,000 every day from alcohol.

## The Census Bureau Shows the Following Causes of Death:

Tuberculosis . . . . .	90,360
Cancer . . . . .	46,531
Typhoid Fever . . . . .	10,000
Measles and Scarlet Fever . . . . .	(almost) 10,000
Whooping Cough . . . . .	(over) 5,000
Heart Disease . . . . .	86,000
Pneumonia . . . . .	51,000
Accidents . . . . .	50,000
Suicides . . . . .	10,000
Homicides . . . . .	4,000
Alcohol . . . . .	3,183

CAPTAIN HOBSON, in his grossly exaggerated statement, says that alcohol causes 3000 American men to murder their wives each year and 2500 to kill their children. In the census bulletin of prisoners and juvenile delinquents for 1910 it is shown that there were 6890 prisoners in State penitentiaries, January 1, 1910, sentenced for grave offenses or for murder; 1864 of these were from the nine prohibition States, which have 15 per cent of the total population, while 1759 were from twelve States—Massachusetts, New York, New Jersey, Ohio, Indiana, Illinois, Michigan, Wisconsin, Missouri, California (licensed States), which have 53 per cent of the total population.

In the nine prohibition States, 12 were convicted of murder for every 100,000 population, and in the 12 licensed States, 3.6 in 100,000 were convicted. These figures would indicate either

that alcohol does not cause murder, or as is more likely, that prohibition does not prohibit.

Kansas had 94 prisoners condemned for murder; New York, 42; Pennsylvania, 70; New Jersey, 70; Georgia, a prohibition State, 715; Mississippi, a prohibition State, 502; Tennessee, a prohibition State, 128; North Carolina, a prohibition State, 102; Oklahoma, a prohibition State, 114. \* \* \*

The Prohibition hysteria which swept over the Southern States has not accomplished its purpose; has been a fruitful cause of a malignant, narrow, unrelenting partisanship; has divided communities in States affected, to their serious detriment; and in addition has woefully failed of enforcement, causing a disrespect for law which always accompanies the non-enforcement of a statute, and a lamentable and deplorable undermining of confidence in courts and public officials.

Many former North Dakota people in Southern California will be interested in the nomination by the President of the M. A. H. Hildreth for the office of United States Attorney for the District of North Dakota.

## Police Out of Politics.

The Chief of Police yesterday issued orders that members of the force must not participate in street corner debates upon political questions or show any partiality in dispensing street meeting.

## For California Dry.

The Young Campaigners, an organization of boys and girls from the Sunday school, who have been organized and promoted by the W.C.T.U., will hold a parade at Central Park this afternoon from 3 to 4 o'clock under the direction of Mrs. Ellen Dayton Blair.

## At the Northern.

The first of a series of musical entertainments to be given this season at the Hotel Northern to its guests and their friends was held Thursday night in the lobby. The programme consisted of ten numbers, with Prof. L. H. Gauwiler at the piano. Vocal solos were rendered by Miss Anna K. Berger, with a recitation by Miss Horstine Van Zile. Dancing followed.

## Death of Nazarene Minister.

Rev. U. E. Ramsey, formerly pastor of the Nazarene Church at Cucamonga and other places, died at No. 1222 Spence Avenue, this city, on Sunday, 30 years ago, leaving a widow and one daughter. The funeral will be held at the First Church of the Nazarene on Monday afternoon at 2 o'clock. The deceased was taken ill after the services, and died here, being unable to take a change and he never recovered his health.

## Donations Acknowledged.

John Alton, treasurer of the Prince of Wales fund for the relief of British sufferers by the war, yesterday received a letter from L. E. Halsey, accountant for the fund, acknowledging the receipt of \$1,200 from Los Angeles. He informed Mr. Alton that the fund has reached the enormous total of \$15,000,000. He also received acknowledgment of over \$1,200 sent to the British Red Cross by the Daughters of the Order of the Sons of Los Angeles.

## Insured Death by Electricity.

Handling an electric wire switch while standing in a wet depression in the cellar of his home at No. 130 South Glendale street, Peter Uren, a young Russian, was instantly killed. According to the coroner, James Bearyoff, a friend of Uren at the time, Uren's urge to step on a piece of wood on the ground and broke a wire with his hand. Efforts to revive Uren failed. The body was taken to the Button morgue.

## Escaped Bull But Not Gate.

Dick Chavez, an ordinary, a humble employee of the slaughter-house at the Cudahy plant, played toro-adore yesterday. Jumping into an enclosure to frighten a bull into the runway, Chavez was surprised to see the animal turn upon him. Running and dodging he sought to evade the horns of the bull, but fell and worked his way through a small gate and Chavez darted out. Escaping being gored was his ill-fortune to have his hand crushed by the closing of the gate. He went to the Receiving Hospital to have it dressed.

TALKS TO HEBREWS  
ON SUNDAY LAW.LAWYER SPEAKS AGAINST IT AT  
MEETING IN SINAI  
SYNAGOGUE.

Max Lowenthal, following the regular religious services in Sinai Temple last night, addressed the assembled Hebrews on the subject of the Sunday-rest law.

He said in his opening remarks that it was neither the time nor the place for a political speech and he did not intend to make one, but that there are times when people feel like saying things and he believed they should say them. He argued that it is not a mere question of an eight-hour law nor merely of a Sunday law, but that the question goes deeper and involves religious liberty and is a tendency in the direction of uniting church and State, which is contrary to the Constitution of the United States.

"This particular proposed law," he said, "is probably as cunningly devised as any law ever devised by a cunning man, but you do not suspect it of being. There is in it sort of a recognition of a widespread religious body in the proposed law and they will probably be exempt if its operation should become a law."

He traced back through traditions of the past to show that much blood had been spilled in the world and much persecution has resulted from attempts to convert nations and acts contrary to the conviction. He said the proposed law might be constitutional, but he thought one could be drawn that would exempt nobody from its provisions and still be constitutional.

"It was not by accident or oversight that the author of the Declaration of Independence and of the Constitution left God out of them, but it was done to keep church and State separate."

In speaking of the understanding of the proposed law he said:

"The Sunday laws in other States, if brutal are frank, plainly saying, 'If you don't like it get out,' but you should not oppose any kind of a Sunday law because it is because of the time, but oppose it because you must insist on keeping religion and State separate."

Political Announcements.

**CURTIN FLAYS JOHNSON IDEA.***Erasure of Parties Would be Melancholy Phantasy.**Tells Westgate Audience of "Progressive" Fakery.**Shows Military Ancestry to the Old Soldiers.*

Senator Curtin, Democratic nominee for Governor, continued his campaigning in Los Angeles county yesterday by several bitter arraignments of the Johnson "Progressive" party and the Johnsonian idea that all political parties are a thing of the past.

Curtin spoke in the afternoon at Sawtelle and at Westgate to crowds of old soldiers being cordially received at both places. He was cheered when he told his audience "that his next-door-neighbor was Commodore John Barry, "father of the United States navy," that Andrew Curtin, his second cousin, was war Governor of Pennsylvania, and that Andrew Corcoran, an uncle, deserted a British ship in Quebec to join Farragut's squadron.

The Democratic nominee was introduced at Sawtelle by Judge William A. Bowers and at Westgate by Arthur Newby, Democratic candidate for Lieutenant-Governor out campaigning to defeat the Republicans.

"I never heard a more remarkable spectacle than you never before in the history of California have witnessed. You never before saw the leader of the dominant political party deliberately disowning the man who had lifted him to power. But that was what was done two years ago, when the Progressives took from the Republicans the right to place the names of the state electors on the national ballot."

"You never before saw a Governor saying that if he were elected he would destroy all political parties. If that kind of doctrine were asserted in every State in the Union this government would become a melancholy phantom."

This government was conceived in political differences. This government is founded on political differences. "The government of the first democratic republic that ever has endured in the history of the world. It is the result of the compromise between the ideals of Alexander Hamilton, the conservative, representing a centralized system of government; and the ideals of Thomas Jefferson, the radical, representing the rule of the people."

"But now, in 1914, more than a century after two great minds wrestled with the problem, we proceed as we have said, the only democratic republic in the history of mankind, you see before you a candidate for Governor, finding himself without a party, who advocates the wiping out of the party system. He has no friends, that he would have been making that argument two years ago, when the progressive party, being in the ascendancy, was enabled to disfranchise the Republican voters of California?"

"If this Governor of California had his way you would never register in California as Democrats or Republicans—aye, or even progressives, for it seems not as if the founder of that party was ashamed of it."

*For the Short Term.*

The name of Milton Hesselberger, No. 110 North Mariposa, will be vigorously written in as a candidate for short term Supervisor in the Third District. The short term is for sixty days. He is a Republican, a civil engineer, has lived here twenty-five years and worked for the city since 1901. He was a member of the Hespelant troupe, D. Cavalry, N.G.C., under Capt. Fredericks. He has many friends who have started a write-in campaign for him.

Sidney L. Briggs, who is a candidate for the short term Supervisor in the Third district, will also be written in for the short term. Yesterday it was announced by the Socialists that they will try to land H. H. Roser, one of their leaders, on the ticket by the write-in process.

*Johnson's Final Blast.*

"The most thrilling story of my campaign," says Gov. Johnson, "will be delivered by him at Trinity Auditorium tonight. Some other things will be conceded by other speakers who have been allowed to share the limelight with His Excellency. One is Mrs. Frances Noel, a Socialist and union-labor worker—a red card worker who is trying to swing the Socialist vote to the Progressive Party. Frank Timmons of the Central Labor Council, and the company is rounded out by Congressmen Bell and Stephens. Gov. Johnson will close his campaign tonight, after having toured the country all week."

*Long in Long Beach.*

Stephen G. Long, candidate for Superior Judge, has called attention to a condition that is an interesting phase of the local campaign.

"Long Beach has never had a representative among the judges of the Superior Court," he said. "Other cities, outside Los Angeles, are now represented on the bench. In the judiciary, though naturally most of the judges have been chosen from Los Angeles. The last Legislature increased the number of judges from twelve to eighteen, and this is the opportunity time to select as one of the eighteen judges of Los Angeles county a man from Long Beach. As the candidate from that city, I have voted there for twenty years, have practiced law in that city for more than twenty-five years and have been endorsed by the County Bar Association. I was City Attorney at Long Beach for seven years. Of the twenty candidates selected at the primaries, nineteen live in Los Angeles, the other five residing in surrounding towns. It is not fair to cast one of your ten votes for the candidate from Long Beach."

*Craig and Reeve.*

**NON-PARTISAN JUDICIARY CLUB.** The Non-partisan Judiciary Club has indorsed the candidacy of Wm. C. Craig for the District Court of Appeals; Sidney N. Reeve and Elmer R. McDowell for Judge of the Superior Court. These indorsements are supported by leading citizens of the south.

**ITINERARY OF FREDERICKS.**

Capt. Fredericks' itinerary for today follows:

12:30. Be at the Los Feliz bridge across Los Angeles River, near Tropico, where he will be met by citizens from Glendale.

1:00. Tropico, where street fair is in progress.

2:00. Glendale for thirty minutes then leave at 2:30 for Downey by way of Stephenson avenue, where delegation of Los Angeles citizens will meet Capt. Fredericks.

3:00. Shrine Auditorium at Elk's ball.

**Industrial Bureau.***(Continued from First Page.)*

our dreams of America's commercial dominance along the shores of the Pacific. Year after year hundreds of thousands of Americans will continue to come westward. The entry of the great European war will add countless thousands more to our population, and in the schools of our city are nearly 100,000 boys and girls whose parents soon will be looking for opportunity and advancement. We can not sit idly in a self-satisfied attitude of smug complacency—we must have due regard for the welfare of those who are coming and those who are to come from foreign regions, and with interest in the thoughts of young Americans that Los Angeles is now educating for the great battle of life.

"Los Angeles will welcome industry. Here is to be found all the requisites for successful manufacturing, equal climate, efficient labor, cheap fuel and power, abundant raw materials, splendid railroad and water transportation facilities and rapidly-growing markets. Here, therefore, are the conditions of opportunity and the opportunities for the enlargement of our industries."

Both Mr. Kinney and Mr. Borke placed emphasis on the fact that the business of the city is the public service institution; that it is here to help factories now existent and to encourage others to come; that it proposes to ferret out new sources of raw products for conversion here into articles of commerce, and that it will assist in pioneering new marketing fields.

**PIONEERING.** In the "pioneering" line, the Southland is at present engaged in some unique enterprises. There is a concern here which is making potash by burning alpines and omega of enterprise is represented in the automobile and motion-picture apparatus line. Los Angeles is in the forefront. This city is also making strides in fruit-canning and with just as much success as the San Joaquin Valley.

The following interesting list of concerns that have erected new buildings here the past nine months was given out last night by the bureau: Union Iron Works, Pacific Coast Bridge Company, Remond, Jones & Co., Pines & Boyle Manufacturing Co., Pioneer & Royal Manufacturing Co., K. F. Rothgeb Company, Pacific Tank and Pipe Company, Pacific Reduction Company, Royal Manufacturing Company, Angelus Sanitary Sanitary Co., Angelus Sanitary Sanitary Co., Pacific Coast Products Company, Union Tool Company (Diesel engine plant), Lambert Tractor Company, Panama Rubber Company, California Woolen Manufacturing Company, Pan-Pacific Truck Company, Pan-Pacific Macaroni Company, Pacific Linoleum Company, Dixie Canning and Preserving Company, Whittier Canning Company, Monteith, California, San Gabriel Canning Company, Southern Piano Company, Coast Fishing Company, Van Camp Sea Food Company, United Tuna Packers, Pacific Light and Power Company, La Verne Pre-cooling plant, Dixon Art Glass Company, and Knott Ice and Cold Storage Company.

**EXTORTION ALLEGED.**

Former Officer Wanted for Forgery and Patrolman Suspended While Affairs is Investigated.

Involved in the alleged extortion of \$30 from a Japanese rooming-house proprietor, Joseph Tilden, a former deputy constable, is wanted for alleged forgery and Patrolman A. R. Dunham was suspended yesterday, pending investigation of his connection with the affair.

Tilden several days ago was one of a group discussing "hard times" in a neighborhood at No. 1 East First Street. One of the owners of the establishment mentioned as an illustration of general conditions that he had been forced to institute attachment proceedings to collect \$248 owing him from a Japanese rooming-house keeper who was a restaurant. Tilden, it is alleged, represented himself as a deputy under Constable Thomas and learned that the Japanese was Sukechi Nogi of No. 125 North Central.

Without even the attachment papers, Tilden is charged with having gone to the Japanese and demanded a part of the amount due with immediate attachment for failure to pay. The Japanese paid him into court paying out money until Tilden returned with Patrolman Dunham. Then he gave Tilden \$20, he says, and Tilden gave him a receipt, signing the name of J. H. Brock, a fictitious person, according to the affidavit made by Deputy District Attorney Keyes.

Patrolman Dunham told his superiors that Tilden offered to give him half of the \$20, but he refused. He admitted Tilden was intoxicated and walked his beat with him for an hour. The officer's failure to arrest Tilden was the technical reason for his suspension.

**"AS YOU LIKE IT."**

The testimony-factory conducted by Hon. Om, well-known Chinaman in San Lou, Obispo, the purpose of which will enable the yellow men to go back to China and be readmitted to this country, was the subject of a report of the Federal grand jury yesterday afternoon. Hon. Om was indicted in addition to failing to identify the records of individual Chinese; Gin Ong, Gin Lim, Eng Wing and Leons She were indicted for conspiracy.

Special price for today and next week—Per dozen 35c; per hundred \$2.75.**TWO SPLENDID NOVELTIES IN SWEET PEAS****KING WHITE**—The last word in a Giant White of the late Spencer class. Enormous wavy blossoms, petals frilled and undulated. It has four flowers to the stem, with long green pointed leaves. Making a length of fifteen inches.

PRICE OF ANY OF THE FOREGOING, 5c PER PACKET.

MARGARET MADISON—An improvement in size over any other Peas of its color. A lovely azure blue slightly tinted with Maize. When fully developed the blossoms change to clear light lavender.

Last week we called your attention to the fact that now is the time to make a first planting of Giant Spencer Sweet Peas. In addition to the two splendid novelties above, we repeat our special offer of last week. It is time to act. By planting them now you will have a successive crop of bloom following the time when the winter sorts go out of flower. A better quality of seed than that which we offer cannot be obtained.

**AMERICA SPENCER**—Handsome variegated variety. Three to four flowers to the stem. Color every white striped and pincered with bright crimson. Price per packet 15c.**COUNTESS OF SPENCER**—(Re-selected stock) Deep rich rose pink of an exquisite shade. Price per packet 15c.**FLORIAN NIGHTINGALE SPENCER**—Deep lavender bloom. Flowers heavily waved and undulated. Price per packet 15c.**GLADYS EWEN SPENCER**—A lovely shade of deep slate with striated and wavy standards. Price per packet 15c.**GAIETY (SPENCER)**—White, heavily striped and banded crimson. One of the best fancy sweet peas. Price per packet 15c.**ELFRIDA PEARSON (SPENCER)**—A magnificent English novelty. Enormous size flowers, usually double. The flowers are of various colors, rose, orange-pink, etc. Flowers enormous in size, beautifully frilled. Price per packet 15c.**OTHELLO SPENCER**—Dark glossy maroon of an intense shade. Standards and wings beautifully striped. Price per packet 15c.**SELENE SPENCER**—Rich orange salmon. Double flowers. Price per packet 15c.**WHITE SPENCER**—(Extra selected stock) The best white sweet pea generally grown. Snowy white in color and prettily striped. Price per packet 15c.**SPECIAL OFFER**

We will mail free, to any address on receipt of price, one package of each of the above nineteen varieties for \$2.25. Or you may select any seven of the above, (except Elfrida Pearson, Sterling Stant, King White and Margaret Madison,) and we will include one of these latter novelties gratis, making eight in all, for \$1.00.

**NOTE**—When in need of cut flowers, wedding decorations, or funeral designs, artistically arranged at strictly reasonable prices, call on our flower department.**DON'T FORGET YOUR SPECIAL BOX OF CUT FLOWERS****SATURDAY \$1.00****SUNDAY \$1.00****EFFICIENT SERVICE****QUALITY GOODS****At All Leading Drugstores****Howard Smith****Telephones****Nurseries located at Montebello. ## SATURDAY MORNING.

*Pen Points: By the Staff*

The Johnson tire has blown out.

Col. Roosevelt is not boasting Gov. Longson to any extent. There is a reason.

Hiram was King of Tyre, but he only served one term. The latter-day Hiram will do likewise.

And, lo, California, like the name of Abu Ben Achem, will lead all the rest here Wednesday morning, unless all signs fail.

The Earl machine, like Dr. Woodholme's "One Horse Shay," is going to pieces all at once. Too much hot box.

We do not understand that there can be any scarcity of the eats in Mexico so long as they have so many "provisional" Presidents.

It is the G.O.P.'s glory to be, and under its benign administration the people of the country were never so prosperous and happy.

Under Republican rule there was no idle factory, and the army of the unemployed was negligible. Vote to restore its former conditions.

Greece may not remain so all-fired until after all. Some war poet will even sing a paean to the "Isles of Greece" in whose behalf Byron died at Missolonghi.

The Los Angeles business men who pay their share of the graft tax next Monday will not feel very much like voting to endorse the Wilson administration on Tuesday.

"Ich dien," should be the motto of every Republican in California. They can do no better by restoring California to the party that placed it in the fortuitous States.

Chancellor Snow of the University of Kansas says his new bug, the antediluvianid lives in holes in the ground. Now we know what the matter with Kansas.

Senator John D. Works pleads for election of a solid Republican Congressional delegation from California. He understood the importance of doing so well as Los Angeles perform her share in glorious work.

Probably the condition of Senator Lane's throat forbade him saying a word for "Constitutional John" Curtis a few years ago, when Lane was trying to win the California Governorship. The port of John Curtis was most welcome.

Up to the hour of going to press there was no indication of peace among warring nations, because several hundred American children signed several petitions for peace. Both sides but not clear-thinking proposition.

Voters who left the Republicans a dugout in 1912 are returning to camp-ground, recalling the story of the last man, "And he arose and cast his father, when he was yet a boy, off his father saw him and died and ran and fell on his neck."

There are two things about the business we cannot understand. One is if a man's time is worth anything. One is on his machine can be reckoned. One cent in the business; and why men with money enough to pay for a automobile need the nickel fare?

The American Bar Association rebuked the Clayton law as a poor, caravansary, unfairly constructed democratic law of work for petty politicians and men who have been forced to depend entirely on ability to fool the ignorant in order to live a living. It would be like gilding the lily. It would be like gliding the lily. We to add anything to that description.

TO SHOW THE GENTLEMAN'S AGREEMENT BETWEEN THE DEMOCRATIC AND BULL MOOSE PARTIES IN VERNON, QUOTED.

Charles A. Prouty, the Bull Moose candidate for Senator, has been strengthened by the withdrawal of Senator Dillingham in his favor.

McKinley ought to have withdrawn with the exception of eight years, proud record of the Republican national control. In that time Johnson, Grant, Hayes, Garfield, Harrison, McKinley, Roosevelt, and Taft were at the helm of the ship of state. It was not necessary to dash the "H.O.R." once during the long voyage. Is not proud of their record achievements?

TO MY LOS ANGELES FRIENDS.

O palms, so stern and stolid. So somber and sedate.

You take your need of beauty When evening hours are laid.

The shadows and your softness. Your royal curves they train.

The moonbeams reach the soul of man.

Dawn night reveals your grace.

Lace-draped and ruby-jeweled.

Fair pepper-tree, you stand.

Most gracious of all tree-tops.

Bright bride of arbor-land.

Fern-fingered leaves, confidante.

Your tenderness confess.

As low they droop, conning.

These delicate caravans.

Cocoons are you, acacia.

Of mingled foliage bright.

Of robes you're ever changing.

Old fancies your delight.

From golden-green to blue-

To suit against George H. Dixey.

M. Robinson, Oscar Lawler, Dudley

Rohrbach, Harry Raymond and

John C. Conroy.

Doris Davis, for an all-around musical education.

The statue of limitations would have run today which was the reason for the suit being filed yesterday.

And, like a gentle man,

The "Article" complained of was

"Plot to Hustle in Blackmail."

Wanton to say in so many words

I think I'm looking

I wrote the sun.

WALLACE.

## Jongui Scandal Ends with Lawyers' Conviction.

## McKelvey, After Twenty-five Years, a Blackmailer.

## Complaining Witness Ruined; Reputations Blasted.

A knock-out blow to legal black-mailers was dealt yesterday by the jury in Judge Wellborn's court, who returned a verdict of guilty against Attorney Charles S. McKelvey and W. H. Stevens, after deliberating twenty-four hours. Clemency was recommended in the case of McKelvey.

When the verdict was read by the foreman of the jury, both McKelvey and Stevens appeared dead. They had hoped for a second disagreement to arise. Mrs. Stevens, who had been sitting faithfully by her husband during the ordeal, broke down and wept, and their daughter appeared to be heart-broken. There was no other commotion at the end came to the scandal which has blackened so many reputations.

The provisions of the Federal code fix the punishment for the crime of mail-theft at five years imprisonment at a fine of not more than \$100 or imprisonment in the penitentiary not more than five years, or both, within the discretion of the court. A thirty-day state execution was allowed by Judge Wellborn.

The specific allegation against the guilty party is that, during the summer of 1913, they sent letters to W. H. Evans of Montana and Kyle MacBratney in El Centro, threatening them to call at the office of Stevens on "a matter of interest to them;" that matter, it is claimed, being suits threatened to be filed against Evans and MacBratney by the Brown family, an inmate of the Jongui apartment-house, in this city.

The jury lost no time finding that conspiracy existed and that the defendant Stevens was guilty, but a dozen ballots were taken before the jury were a unit for the conviction of McKelvey. That result was reached soon after breakfast yesterday morning. The jury was withdrawn to deliberate. An objection to these crank schemes was at once denounced as "reactionary" and the thing was passed and became the law. This policy was followed by Hiram Johnson, and he has since advocated the same. He would be a good man if he would be a better word) to go about the State lauding this work as a great achievement of his administration.

## MOVEMENTS IN SOCIETY.

Mrs. Stephen M. Dolphin,  
Who tonight is to become Mrs. Howard S. Reed.

**THE** wedding of Howard S. Reed and Mrs. Stephen M. Dolphin will be solemnized this evening at Christ Episcopal Church, Rev. Baker Lee officiating. It will be an informal wedding, attended by a few relatives and friends, the announcement being a surprise to most of them.

Mrs. Dolphin is the charming widow of a well-known newspaper worker who was an important department of The Times—a man of notable achievement and character. Since his death, about four years ago, Mrs. Dolphin has gained recognition for genuinely helping the worthy cause.

Mr. Reed is a capitalist, a rancher and a mighty hunter, well known as one of the greatest cotton experts in California. He is the proprietor of a great ranch near Santa Ynez, where he and his wife will reside for a part of the time, spending the remainder in Los Angeles. He has been a keen student of cotton growing in California and his efforts in behalf of the cotton industry have been of great service to the state.

The news papers of the country have contained many articles descriptive of his success as a hunter of big game in Alaska and Lower California. He is a widely-

traveled and cultured gentleman. Congratulations are extended by their friends to both parties to this joyous affair.

**Fashionable Affair.**

A fashionable doll tea, for the benefit of St. Catherine's Guild of St. Stephen's Church, was presided over by Mrs. C. J. George or Ivar Astor, recently. The room was elaborately decorated with pink Cecile Brunner roses and potted ferns. Receiving with Mrs. George were Rev. and Mrs. J. Arthur Evans, Mrs. T. Hovey and Mr. John E. Owen, formerly.

During the reception, the bride's aunt and uncle, Mr. and Mrs. Robert Lloyd, No. 1023 Alvarado street, Thursday evening at 8:30 o'clock.

The bride, who looked dainty in a white mantilla, was accompanied by Miss Wallace, Miss Daphne Drake, Miss Lillian Ray Dyke, Miss Marguerite Hughes, Miss Marie Scheller and Miss Helen Thresh.

**Pink Wedding.**

Mrs. Lorena Montgomery, daughter of Mr. and Mrs. M. L. Montgomery, became the bride of Wesley Block of Bakersfield. Rev. Dr. W. C. Gandy officiated.

Reading the lines at the church, the bride's aunt and uncle, Mr. and Mrs. Robert Lloyd, No. 1023 Alvarado street, Thursday evening at 8:30 o'clock.

dainty in a white mantilla, was accompanied by all the mothers in the neighborhood, admiring their daughters to be as like her in principle as was possible.

Instead of listening with interest to men who speak lightly of other women, the right kind of a girl will frown down, for it is certain that she makes more demands than any other girl. She is delighted if she found her frivolous, extravagant, concealed, and he could not say so positively, but he was quite sure she would be pleased to find, if occasion presented itself.

The girl who listened, knowing her sex well, realized that he was misjudging her former sweetheart, who was a man of much more brains than he would have thought of flinging to save her life. She also knew for a fact that she made her own dresses, trimmed her own hats, read books, and stands as equal to two or three years at that. In fact, she was a girl who had been held up as a paragon by all the mothers in the neighborhood, admiring their daughters to be as like her in principle as was possible.

Instead of listening with interest to men who speak lightly of other women, the right kind of a girl will frown down, for it is certain that she makes more demands than any other girl. She is delighted if she found her frivolous, extravagant, concealed, and he could not say so positively, but he was quite sure she would be pleased to find, if occasion presented itself.

The girl who listened, knowing her sex well, realized that he was misjudging her former sweetheart, who was a man of much more brains than he would have thought of flinging to save her life. She also knew for a fact that she made her own dresses, trimmed her own hats, read books, and stands as equal to two or three years at that. In fact, she was a girl who had been held up as a paragon by all the mothers in the neighborhood, admiring their daughters to be as like her in principle as was possible.

Theaters.

MacMillan, Woodward & Moore in the "Wise Old Mule" brought down the house. So did Max Asher in his feats of impersonation. George Cunard and Franca Ford were having a lovefest and very amus-ing. In "The Phone Girl" Helen Green, being ably assisted by the remainder of the Lucille Love company, was a success. Eddie Fison & Errol were welcomed here as the vaudeville stars, as was also Lydia Yamane. Thus in her clever character work.

"And remember, folks," as the Barker says, "the show goes on again tonight!"

## UNITING ALL FOR STATE BUILDING.

SECRETARY GOES NORTH TO ADD IN WORK FOR THREE AMENDMENTS.

Carrying a message of good will and support from the people of Southern California to the people of the North, Secretary Wilson of the Joint Civic Committee of Los Angeles, last yesterday to call on the principal civic organizations of Sacramento and San Francisco, who are advocating the three amendments to the state constitution. He is prepared to show the people of the north that Los Angeles organizations are working faithfully for Amendments No. 25 and 26, which call for state bonds at 4% interest for state purposes, and San Franciscans that they are for No. 28, which provides for a \$1,250,000 building here. As a representative of all the civic organizations he will be able to speak to the people of the north that the citizens of Los Angeles and the whole of Southern California, in supporting the three measures with equal vigor, have been actuated by a spirit of mutual usefulness and harmonious understanding.

E. A. Geissler, president of the Merchants and Manufacturers' Association, yesterday addressed a letter to the Joint Civic Committee in which he said: "The association is in full agreement with the three amendments as to it is important for Southern Californians to vote for Nos. 25 and 26, as well as for No. 28. The association, however, represents a number of interests which are willing to take part in paying interest and returning the bonds."

D. W. Carmichael, of Sacramento has written that the cause of the State building amendments is progressing well.

W. W. Mines, president of the Los Angeles Realty Board, yesterday gave out a statement of reasons why the amendments in question should be carried. He sets forth the present need for renting State offices here, shows how the needs of these offices will increase, and argues that far greater efficiency would result from housing and centering in a State building.

EGAN SCHOOL ENTERTAINS.

On Saturday afternoon, October 31, at 2:30 o'clock, the Egan School will entertain the children and friends of the children of the Egan School Department. At the same time the mother's of the children will be entertained at the Little Theater in the school building where one plays by the senior dramatic students, produced under the personal direction of Frank Egan, to which the public is cordially invited. The plays to be given are as follows: "Deception," "The Fair Princess" and "Saint Cecilia." This will prove to be a very interesting afternoon and the parents will endeavor to give such afternoons every two or three weeks during the coming season.

## PULPITS GIVEN UP TO REFORM.

Sermons Generally "Dry," but Likely not Dull.

Campaign to Close with a Mass Meeting.

Norwegian Lutherans will Hold Convention.

Dr. William Horace Day of the First Congregational Church announces for Sunday morning "a political sermon without any politics." His subject will be "The Fear of God," dealing with the motives upon which Christians voters must act, and recognizing tolerance toward those who are equal.

### ARE YOU CROSS-EYED?

#### BALLOT OF TROUBLE EXPLAINED.

The political situation will be discussed Sunday night by Dr. J. Whitcomb Brougher in Temple Auditorium, under the unique title, "The Cross-eyed Voter and His Difficulties with the Ballot." J. A. Johnson, warden of San Quentin penitentiary, will deliver a brief address on "The Man Behind the Prison Bars." The large vested choir will give a musical service with special quartettes and anthems, and Mrs. Robert A. Smith, Shaw's protege, H. F. Wallace will address the 4:30 meeting for young people, and Dr. Shaw will speak at the 7 o'clock outdoor service.

"How to Live in Los Angeles and Be Good" will be Dr. Brougher's morning topic. New members will be welcomed and the Lord's Supper

observed. The elevators will be running at both services to carry people to the galleries.

#### NORWEGIAN LUTHERANS.

The Norwegian Bethlehem Lutheran congregation will begin services in their new church, Fifteenth street and Dewey avenue, tomorrow morning. The church is not yet completed, but all activities of the congregation will be transferred to the new building. The Pacific Club convention of the denomination will be held there December 16 to 18, during which time the church will be dedicated.

Wednesday evening Mary Porter Hansen will begin a study class on Asia, to continue for ten evenings, and to which all interested persons are invited.

closed-shop monopoly, reached a point where they were able to sleep right after night on jobs, and demand more pay than overtime while they slept. Strikes were called on for money and off for more. No contractor had any assurance when he took a contract that, or how, or at what cost he would complete it. The iron workers' wages were among the highest paid in the building trades, and their hours of labor were those of the other building trades unions. Since the open shop was established, members of the National Erectors' Association have increased the wages of the men on an average 11.2 per cent. The general average of increase in the building trades unions since the open shop was established was 10 per cent. A government report issued in 1910, showed that iron workers in the country over were receiving 16 to 20 per cent, higher wages than carpenters. The iron workers' Union has never claimed that any question of wages was involved in its fight for the rights of smaller contractors, that were unbroken through the use of dynamite, the union man went to work for the iron workers, that the non-union men had been receiving. To refute the closed shop, the only purpose of the long and vicious campaign of violence and crime. The economic justification for the open shop is found in the fact that it is found in the fact that, even under the increased wages, open-shop work can be erected from 20 to 25 per cent, cheaper than was possible under the old closed-shop system.

The employees of our members are concerned, there has been a continuous period of peace in the industry, from the spring of 1906 to the present time. Not once has there been a strike, with its consequent losses to both employers and men.

Mr. Harriman's public statements so lightly and recklessly made it only can be said that he could not possibly have made them in good faith, with any knowledge of the facts.

The iron workers claim there were any number of wrongs to be redressed. Many of the facts stated herein were many of the facts stated herein. Were many of the facts written in a speech before the Federation Convention in June 1912. Mr. Gompers was present and charged with being the spokesman of the Iron Workers' Union, even after the conviction of its leaders. Mr. Gompers, several months later made a speech in which he stated that the Iron Workers' Union would be retained as a member of the American Federation of Labor and "would be sustained and strengthened." He made the statement that the act of McNamara's—

It was forced by an effort to learn that wages have been lowered, not lowered; that the Iron Workers' Union, instead of being stronger, is stronger, and more funds in its treasury than in 1906; and that the open-shop work of this country, a substantial percentage of the men employed are members of the union.

## SOCIETY AGAPE OVER DIVORCE.

**Doctor Alleges Desertion on Long Separation.**

**Autobus Men File Petitions for Referendum.**

[LOCAL CORRESPONDENCE]

PASADENA, Oct. 31.—A near-sensation stirred the equilibrium of Pasadena society and church circles yesterday when it was learned that Dr. William Douglas Turner, prominent society man of No. 635 Center street, had filed suit for divorce from Mrs. Ella B. Turner.

Several years ago when the physician sold his residence here and went back East, there were rumors of a divorce, but nothing came of it and he settled his difficulties to the belief that all was well with the couple and that there would be no divorce. So the filing of the suit yesterday came like a thunder-clap from a clear sky.

Dr. Turner charges his wife with desertion, asserting that she left him in 1913, and to California, accompanied by a visit to her sister. On her return to Pasadena she found that the home had been sold and that her husband had gone East. She went to live at Hotel Maywood, where she acted as a social hostess and performed many notable social functions. The physician's absence was not long commented upon; he was supposed to be away on a visit.

For years Mrs. Turner has been one of the prominent figures in Pasadena society. She is a member of the Monday Afternoon Club and was formerly president of the Shakespeare Club in which she still retains her membership. For a time after she left her husband she chattered about the country giving readings.

Mrs. Turner is at Oasis Ranch, La Cienca Valley, San Bernardino county. Dr. Turner returned from the East just a month ago.

[PETITIONS FILED.]

The Pasadena Autobus Association yesterday filed with the City Clerk forty petitions asking for a referendum election to put to the vote of the people the recently passed ordinance regulating the buses.

On the other hand, Paul Shoup, president of the Pacific Electric Company, and a member of the commission, says he has no objection to the ordinance.

TROPICO TO CELEBRATE TODAY THE COMPLETION OF PUBLIC IMPROVEMENTS. GROSZ DOINGS PROMISED.

[LOCAL CORRESPONDENCE]

TROPICO, Oct. 30.—Boy scouts are arriving from Redlands, Monroe, Pomona, Pasadena, Los Angeles, and Glendale, and establishing camps preparatory to the opening of the carnival, which will be held tomorrow afternoon at 2 o'clock, to celebrate the completion of the public library and fire department buildings.

The boys are well-known in Long Beach High School and David graduating from a local grammar institution.

[ARRESTED IN ST. LOUIS.]

Two days ago the Commissioners of Fire and the Fire Department agreed to amend their ordinances to fit the bus men, but the latter were skeptical of the change of heart and went ahead with their petitions, which were filed yesterday.

The Commissioners seem to be between the devil and the dark blue sea. They do not seem to be able to make a move in regard to the ordinance without being bombarded with scores of petitions from all directions.

[DEFENDS MARYLAND.]

Commissioner Allin, in defending the action taken by the Commissioners of Fire and the Fire Department, said that the Maryland Hotel could be legally rebuilt of wood, has issued a statement of explanation addressed to the public. He asserted that under a wooden structure with steel laths will enjoy more protection than if the hotel were built of brick after the class C model, which might have a wood interior. He said:

"Although a definite statement was made by the commissioners of Public Works at the time the Commission passed an ordinance creating fire district No. 14, wherein the Maryland Hotel is being rebuilt, there still exists apprehension in the minds of some of the people concerning the admissibility of the Commission's allowing the Maryland to be rebuilt of material which is not fireproof."

After enumerating the different

classes of buildings under the Pasadena building code, Mr. Allin described the construction of the Maryland, which he declared is better and safer than any of the class C buildings of Southern California.

[TOURNAMENT PARK.]

Maintaining that if the entrance to Tournament Park is to be permanent it should reflect credit on the city and be as comfortable, Dean Damon of Throop College yesterday voiced his disapproval of the city's plans for the entrance.

In criticizing the present plans, which were drawn by Building Inspector Simon, Damon, a member of the Board of Commissioners Metalac, Damon presented plans drawn by Myron Hunt at the suggestion of the Pasadena Athletic League. No action was taken by the commission in regard to the entrance yesterday morning.

[GOOD BUSINESS.]

A. E. Edwards, vice-president of the First National Bank and Henry Newell, chairman of the board of directors of the National Bank of Pasadena, returned home yesterday from the Eastern Association convention at Richmond. They say the conditions in the East are flourishing and that everybody is preparing to visit the Exposition next year.

[FIRE AT NILAND DESTROYS HOTEL.]

**OWNER ON GROUND IN A FEW HOURS WITH PLANS FOR REBUILDING.**

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

NILAND, Oct. 30.—Fire late last night destroyed the Niland Hotel and imperiled Watchman McDonald, the only occupant, who was awakened by the flames within a few feet of his bed. He escaped without injury. The cause of the fire is not known. The structure is a new, four-story frame building of forty-eight rooms, was not quite ready for occupancy, but the work of completion was to have been begun November 1. The loss is about \$10,000, and understood to be covered by insurance.

Early this morning Arthur E. Hull, president of the California Land and Water Company, Los Angeles, and the owner of the property, was notified that he had lost the services of the public refused to trust the drivers on the slippery streets.

It was the most unusual sight witnessed here in some time this morning when a team of drivers drew up with the horses standing in the aisle, and even on the steps, and memories of the strap-hanging era before the invasion of the jitney-bus were revived.

[BODY FOUND.]

The jockey public deserted the busines with the first sign of rain and cold, refusing to ride up to the jitney-buses this winter during the rainy season. In addition to the autos not altogether rainproof, some of them are subject to skidding, and the street car corporation.

The cause of this sudden change of patronage from the more or less open auto buses to the rainproof interior of the street cars was the threatening condition of the weather and the light rail of yesterday.

The mark of jitney-car drivers who have been doing a flourishing business for several months were compelled to face the "he-who-laughed-best" situation when they last night, which once were wont to take a man's finds in their pockets drop into the coffers of the street car corporation.

#### UTILITIES BOARD FIRM IN ITS REPLY TO COUNCIL.

Says Nothing has Developed to Change its Attitude and that Services of Chief Engineers are not Needed, but Work will Continue Just as Usual.

Charles K. Mohler, chief engineer of the railroad department of the Public Utilities Commission, will cease to be a municipal employee at noon today. The strenuous and persistent fight to save to him his \$300 per month position has failed. The Utilities Board yesterday decided to stand firmly by its former attitude and abolish the position although it failed to clear up the question of the validity of such a change, regardless of the definite instructions of the Council.

The city of San Diego has agreed to Los Angeles three street flush, including the assessment of \$2000, but they will be subject to competitive bidding. On account of the proposed of having all street flushing done at night, when the public works are lighted, the Board of Public Works asks the Council to authorize it to purchase these wagons as an addition to the present equipment.

#### JUDGE AND ATTORNEYS INSPECT CREEKS AND PIPES.

Woman Alleges Club Divers Normal Volume of Stream for Bathing Pools and Bathing Isn't Riparian Right—Only Surplus Flow Used, the Club Answers.

In preparation for the trial of the action brought by Mrs. May Rindge and the Ridge Company against the Crags Land Company and the Crags Country Club, being a proceeding to enjoin the defendants from diverting water claimed by Mrs. Rindge by natural appropriation and adverse use. Judge Finlayson and Attorneys McKinley, Stephens & Stephens for the plaintiff and Mott & Dillon for the defendants, went to the club grounds yesterday for an examination. What was done did not change the condition of the situation, and the friction that has developed between the board and its railroad engineer. The position of Commissioner Lane was that the board had not adopted recommendations of the engineer he had gone outside and endeavored to create a sentiment against the board.

Commissioner Wirsching became quite heated in his discussion of the presentation of a report of Mr. Mohler before the Council by Councilman Roberts, chairman of the Public Utilities Committee of the Council, was present at the meeting, and made a speech for the retention of Mr. Mohler. What was done did not change the condition of the situation, and the friction that has developed between the board and its railroad engineer. The position of Commissioner Lane was that the board had not adopted recommendations of the engineer he had gone outside and endeavored to create a sentiment against the board.

"Formerly there was a railway on Mission road," said Commissioner Wirsching, "and we were told by the company so that it would avoid having to pay for its portion of the paving and the widening of the street to eighty feet. Now Mohler proposes that a street railway shall go back on this street after the property owners have paid for the improvement."

"It was contemptible to have brought up that report before the Council and to have presented such a statement. I shall consistently oppose the paving back of a railway on the street after the property owners have paid for its improvement. It is disreputable, dishonest and contemptible. I know all about the matter and it's the smuggest thing I've ever heard of."

After long discussion during which many side-lights were thrown on the friction between Mr. Mohler and the board, it instructed President Wright to send to the Council a letter in which the actions of the board regarding the engineer and the engineer were set forth and saying:

"Nothing has developed during the past month causing the board to change its opinion that for the time being no action of the board was necessary for the railroad department."

"We beg to call your attention to the fact that next week a vote will be taken on the question of 21 and that if it should be decided by a majority of the good people of California to turn over matters to the State Railroad Commission there would be no use for this engineer."

After long discussion during which many side-lights were thrown on the friction between Mr. Mohler and the board, it instructed President Wright to send to the Council a letter in which the actions of the board regarding the engineer were set forth and saying:

"Nothing has developed during the past month causing the board to change its opinion that for the time being no action of the board was necessary for the railroad department."

"We beg to call your attention to the fact that it is now 21 and never has been the intention of this board to do away with the work performed by Mr. Mohler. This will have the board's attention the same as if Mr. Mohler were present."

**Big Paving Contract.**

The Board of Public Works yesterday awarded to George R. Curtis the contract for the paving of Santa Barbara avenue, from Budlong avenue to the western city boundaries for \$55,475. He is allowed 100 days within which to complete the work.

**Plans for Warehousing.**

Plans were presented by the harbor engineer yesterday to the Harbor Commission for a portion of the proposed warehousing to be erected at the municipal wharves. The engineer recommends that whatever structures are erected should be at least six stories in height with basement.

The tentative plans include large freight elevators in the center of the structures, large open courts, a series of pairs of cargo doors on each side of the building, and fireproof construction throughout, with automatic sprinkler systems and electric lighting. The section plan submitted provides for a structure 152x480 feet.

**Figures Close Together.**

The Harbor Commission is in the market for the purchase of 475,000 feet of cedar flooring for the transit shed now in course of erection on Municipal Dock No. 1. Bids were opened yesterday and there were seven bidders, presenting figures that were remarkably close together.

Three of the bidders were within 4 cents per 1000 feet of each other. The lowest offer was that of the San Pedro Lumber Company, which offered to supply the flooring for \$15.70 per 1000 feet.

**Memorandums.**

The City Council yesterday authorized the advertisement for bids for a combined ambulance and patrol wagon for the police department.

The Humane Animal Commission has applied to the Board of Public Works for quarters in the City Hall Annex.

Union Hollywood territory is not, so far as the city is concerned, putting a period to all further negotiations with the Union Hollywood Water Company, the board of Public Service Commissioners adopted resolutions yesterday which are expected to result in the conversion of all city territory west of Vermont Avenue into one water assessment district under the Vrooman Act.

Resolution No. 1 called on Auditor Anderson of the water department to prepare a list of all Union Hollywood consumers within the city with the object of securing their views on the formation of an assessment district. Chief Engineer Mulholland was instructed under resolution No. 2 to prepare an estimate of the cost of piping in all city streets west of Vermont Avenue.

Action was precipitated by the reading of two communications from Union Hollywood consumers concerning the board's new system of assessment with company and adversely criticizing the general attitude of the Hollywood company towards its patrons and the city.

"I think we had better put the Skinner operation," said Commissioner Wirsching.

A motion to adjourn was pending, but it was forgotten in the Commissioners' evident haste to put a termination to all further dealings with the Union Hollywood Company.

"I may form a district and put pipes on every street," said Councilman Betkowski.

After threshing over ways and means, it was decided the assessment plan under the Vrooman Act would be most beneficial to those who must bear the burden of the city's extension of its pipe lines.

The cost to property owners, according to Auditor Anderson, will be about 60 cents a front foot for the first year. When there is a large frontage under one ownership, the Vrooman Act provides that ten-year bonds may be issued to care for payments.

"As our rates are 40 per cent below those of the Hollywood company, the saving on water bills will more than pay for extensions," said Mr. Anderson.

A call will be made today on the Board of Public Utilities for a list of Union Hollywood consumers. As soon as these are received, letters will be sent to the consumers asking an expression of opinion on the subject of an assessment district. Meanwhile, Chief Engineer Mulholland will proceed with his blanket estimate of the cost of extending city service into all incorporated areas west of Vermont Avenue by the Union Hollywood Company.

An estimate on one lateral was submitted yesterday by Mr. Mulholland. It is \$41,935 for a main on Western Avenue from Third street to Franklin street.
